# Managing Director Message

---

Dear Partners, Colleagues, and Stakeholders,

At GreenHul Solutions Limited, we don't just consult—we transform. We stand at the crossroads of maritime tradition and tomorrow's innovation, championing sustainable, smart, and globally aligned solutions for the ship recycling, shipbuilding, and repair industries.

Our oceans demand more than lip service—they need bold action and expert navigation through the turbulent waters of environmental compliance, industrial integrity, and international standards. That's where GreenHul steps in. With decades of expertise spanning continents, conventions, and complex projects, we anchor our work in global frameworks like the Hong Kong Convention, Basel regulations, and ILO guidelines, while never losing sight of local realities.

As the Managing Director, I take pride in leading a crew of seasoned professionals—visionaries, former IMO advisors, technical architects, and legal masterminds—who bring with them not only a wealth of knowledge but a commitment to impact. Our work is not just about ticking boxes; it's about building ecosystems that are green, ethical, and economically resilient.

In the coming years, as Bangladesh transitions into a new era of maritime compliance, GreenHul will be a trusted partner, policy advocate, and strategic executor. Whether it's guiding shipyards toward HKC certification, facilitating carbon trading, or enabling industrial modernization, we're here to deliver safely, soundly, and sustainably.

Thank you for believing in our vision. The future is maritime. The future is GreenHul.

Warm regards,

Samanta Islam  
Managing Director  
GreenHul Solutions Limited

# GreenHul Solutions Limited

Maritime Consultancy Firm

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

## Overview

GreenHul Solutions Limited is a multidisciplinary maritime consultancy firm positioned at the forefront of sustainable transformation in South Asia's ship recycling, shipbuilding, and ship repair industries. Integrating technical, legal, and environmental expertise, the company delivers end-to-end solutions to ensure safe, compliant, and future-ready maritime operations aligned with the Hong Kong Convention (HKC), EU SRR, and other global frameworks.

Founded with a mission to modernize and decarbonize shipyard ecosystems, GreenHul works as both a strategic advisor and implementation partner to governments, donor agencies, classification societies, and private stakeholders. Its core strengths lie in project facilitation, regulatory compliance, and industrial innovation, offering tailored consultancy services supported by a global network of partners, including MARPROF (UK), JMS Japan, HR Ship Management, HazTag, Capella Consulting Services, Value Infinity, BUET, MIST, Institute of Marine Science CU, Institute of Forestry and Environmental Sciences, CU, and BORI (Bangladesh Oceanographic Research Institute).

GreenHul's consulting model emphasizes digital transformation, capacity development, and carbon market integration. With specialized offerings in hazardous waste audits, IHM certification, SRFP/SRP planning, environmental clearances, and carbon trading advisory, the company positions itself as a regional compliance leader and policy influencer.

Led by a multidisciplinary team including legal experts, naval architects, Marine engineers & officers, and former classification society officials, Environmental Experts, Occupational safety and health experts, Experts in industrial process optimizations, auditors and inspectors in various national and international standards, e.g., ISO standard, Expert in blue economy, Expert in Shipping. Marine Researcher. GreenHul acts as a bridge between international maritime conventions and operational realities on the ground in Bangladesh and beyond.

GreenHul is not just consulting—it's catalyzing an industry-wide shift toward greener, smarter, and safer shipyard futures.

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

## Vision

To be the world's most reliable maritime consulting partner, fostering green, efficient, and ethical shipyard ecosystems across developing and developed nations.

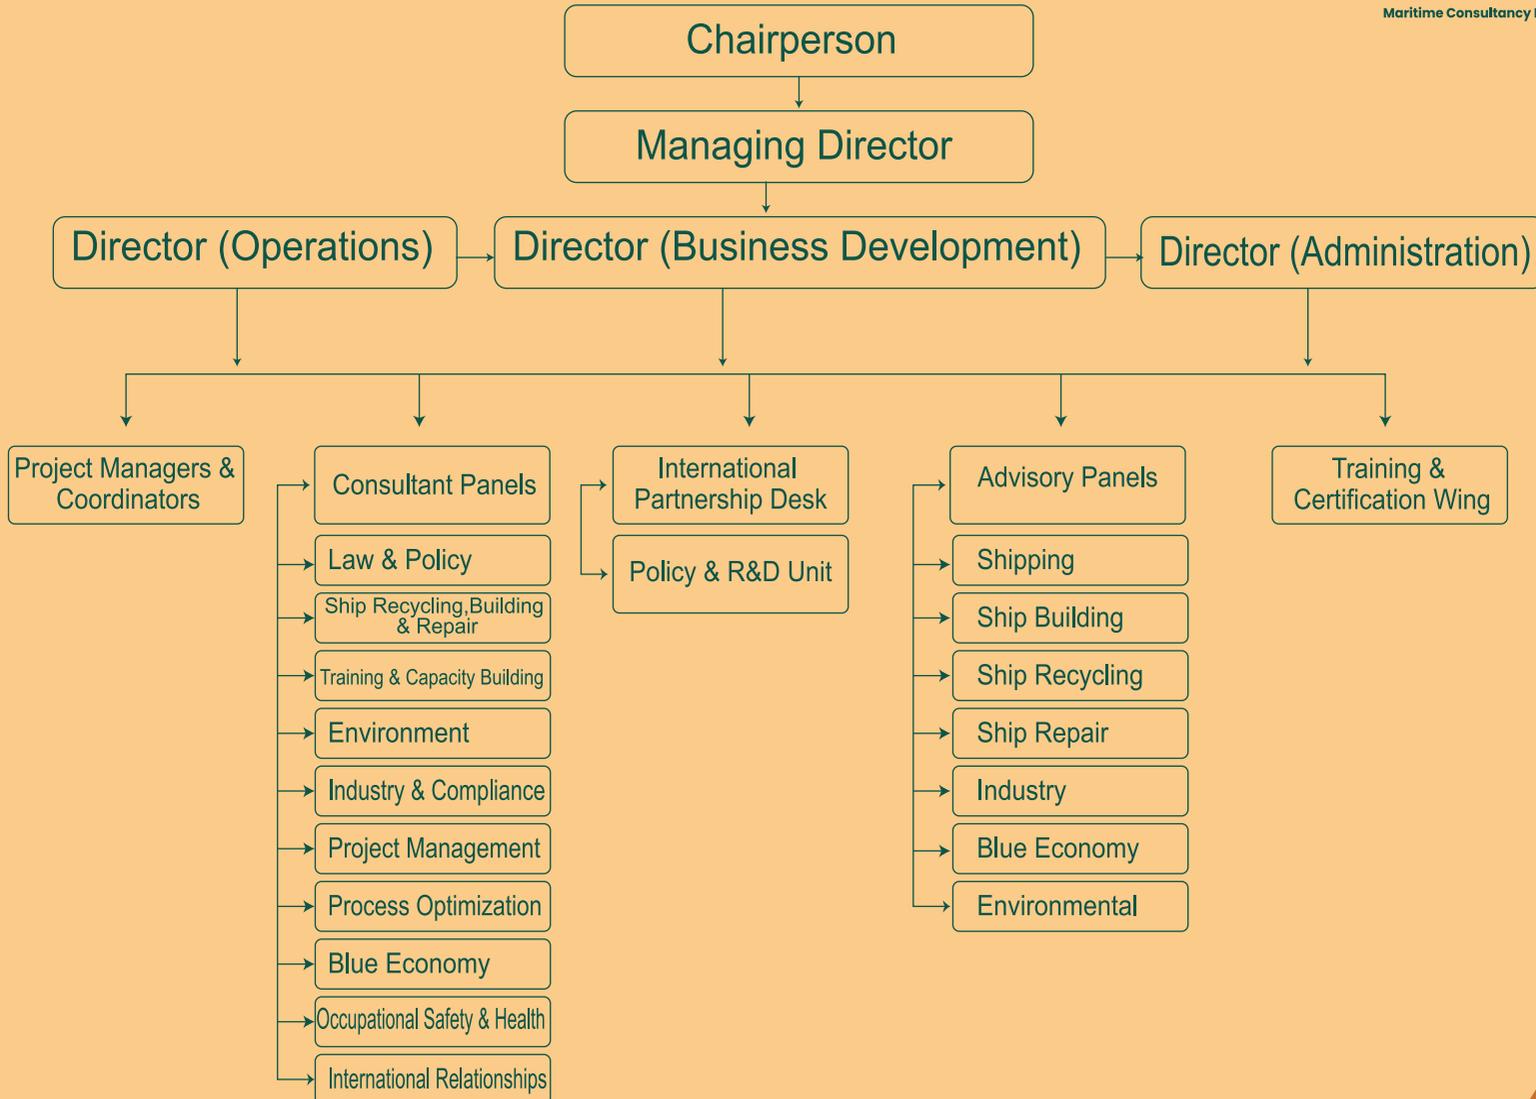

## Mission

To drive innovation, safety, and sustainability in global ship industries through expert consulting, capacity development, and strategic alignment with international regulatory standards.

Maritime Consultancy Firm

## Strategic Approach and Areas of Expertise

---

- Ship Recycling (HKC/EU-SRR compliant)
- Shipbuilding (Green, Commercial & Naval)
- Ship Repair & Maintenance Facility Management
- Industrial Compliance & Environmental Governance
- Maritime Legal & Project Advisory Services
- Industry Process Optimization & Lean Management
- Hazardous & Industrial Waste Management
- Asbestos Survey & Environmental Risk Assessment
- Climate Action Strategy & Carbon Credit Trading
- Shipping Policy & Strategies Advisory
- Industry-specific Occupational safety and health research
- Research in shipping and recommendations

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

## **Core Focus Areas**

---

- **Safe, Sound & Sustainable Ship Recycling Consultancy**
- **Project Facilitation and Partnership Building**
- **Blue Economy**
- **Shipping Policy & Strategies Advisory**
- **Project Management**
- **Industrial Legal Consultancy**
- **Local Representation for International Agencies & Organizations**
- **Carbon Trading & Environmental Solutions**
- **Maritime Training & Capacity Building**
- **Boiler Lift Cycle and Safety Assessment**

## Safe, Sound, Sustainable Ship Recycling Consultancy

- HKC compliance audits
- Green Yard design and upgrade advisory
- Hazardous waste management framework
- Project Management
- Turnkey execution for ship recycling yards
- Stakeholder alignment and regulatory navigation
- Industrial Legal Consultancy
- Maritime and environmental law advisory
- Regulatory compliance audits
- Local Representation for International Organizations
- Diplomatic and business interface services
- Operational facilitation for global institutions
- Project Facilitation and Partnership Building
- Stakeholder mapping and matchmaking
- MoU drafting and execution
- Carbon footprint assessments for maritime industries
- Emission reduction credit facilitation
- Market entry strategy for trading platforms

**GreenHul Solutions**

Maritime Consultancy Firm

**Target Group:** Government, Yard Owners, Donor Agencies, Classification Societies, Port Authorities, Textile and RMG Owners, and Regulatory Bodies

**Scope Statement:** The scope of work includes collaboration with Yard Owners, Donor Agencies, Regulatory Bodies, Classification Societies, Textile and RMG Owners, and International Partners.

# Scope Statement

- Regulatory clearance and compliance consultancy
- Infrastructure development advisory
- Facilitation of green/sustainable financing from international agencies
- Sourcing international shipowners for recycling partnerships
- Facility management consultation and operational optimization
- Asbestos and hazardous material survey
- Industrial waste management planning
- Legal and project advisory services
- Implementation of any project related to recycling (National and International)
- R&D with BUET or any other National, International academia for the improvement of recycling methodology, introduction of weather resilient PPE in Bangladesh recycling
- Client sourcing for ship repairing services
- National and international tender preparation and submission
- On-site project management and technical consultation
- Retrofit, maintenance, and compliance upgrades
- Supply chain and logistics planning for repair operations
- Financing arrangements through donor and development agencies (e.g., ADB, JICA)
- Strategic partnerships with local and global stakeholders
- Green shipbuilding project development and advisory
- Regulatory and classification approvals
- Tender bidding and bid documentation
- Quality assurance and project management support
- Guiding legal and regulatory frameworks (ILO, IMO, Bangladesh Labor Law).
- Facilitating EMS, ISO, and HKC certifications.
- Conducting safety audits, fire risk assessments, and pollution control evaluations.
- Accreditation from the BAB for auditing ship recycling or any other legal industry
- Boiler safety inspection, life cycle assessment in Industries on behalf of the Ministry of Industries
- EIA in various projects (National and International)
- Developing and managing complete project lifecycles, from feasibility to closure.
- Drafting and reviewing contracts, licenses, and MOUs.
- Providing dispute resolution, compliance support, and liaison with authorities.

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

## Industry Optimization and Lean Management

- Conducting lean audits to identify bottlenecks.
- Designing cost-saving operational strategies.
- Implementing Kaizen, Six Sigma, and 5S practices adapted for shipyards and heavy industry.
- Industrial process optimization, process engineering in various legal industries

## Industrial Hazardous Waste Management

- Hazard classification and inventory of waste generated during ship recycling or industrial operations.
- Planning for safe storage, transport, treatment, and disposal.
- Assisting clients in complying with international conventions (Basel, HKC, MARPOL).
- ETP, STP optimization, water engineering
- Detailed asbestos material surveys (AMS) using certified surveyors.
- Sampling, lab testing, and risk categorization.
- Preparing abatement plans, disposal strategies, and regulatory submissions.
- Calculating carbon footprints of shipyards and recycling facilities.
- Designing carbon credit generation projects.
- Registering projects with national/international trading platforms and facilitating the sale of credits.
- Green Steel Concept promotion

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

## Local Representation & Partnership Building

- Representing foreign classification societies, NGOs, or shipowners in Bangladesh.
- Partnership with any Cash buyers
- Building partnerships with regulators, ministries, and port authorities.
- Facilitating MOUs, PPPs, and strategic alliances to promote maritime industrial growth.
- Case study in Ship recycling, building and repairing (Dispute resolution)
- Legal assistance to BSRB, Ship recyclers, etc.

**GreenHul Solutions**  
(Innovate, Sustain, Thrive)  
Maritime Consultancy Firm

## Ship Recycling, Shipbuilding & Ship Repairing

- Technical advisory for new builds and repair yards
- Infrastructure assessment and optimization
- SRFP and SRP development, layout design, and implementation
- Drydock design and planning support
- Software-based maritime activity monitoring and supervision
- Turnkey project management from design to delivery
- Feasibility studies and cost estimation
- Safety and quality assurance
- Training & Certification
- Policy & Legal Advisory
- Training & Certification
- Compliance & Auditing
- Environmental and ESG Strategy
